Assessment Placement Challenge Form – Math

Students who wish to challenge their placement should do the following:

- 1) Confirm that your placement results are displayed on MyPortal.fhda.edu > Student Registration Tile > View My Placement Results.
- 2) Complete all fields of this form.
- 3) Email this form to the Assessment Center daassessment@deanza.edu

Upon form submission, we will provide you with next steps for how to contact the Math Chair.

Special Notes for Math Students:

- If you are challenging a placement earned by your US high school transcript, you may be able to re-assess with the Assessment Center. We will need to check your transcript to make sure you haven't earned a non-passing grade in a math course before you are allowed to take the Math Guided Self-Placement.
- If you are challenging a placement earned by your Math Guided Self-Placement Session, you may be able to retake the Guided Self-Placement one time within six months of your first session assuming you haven't earned a non-passing grade in a math course.
- Those students who previously took the Math test and were eligible for a retest may be eligible for a Math placement earned by US high school transcript or Math Guided Self-Placement Session assuming you haven't earned any non-passing grades in a math course.

Student Information:

Name:	De Anza ID#	Date:
-------	-------------	-------

Please provide the following information:

First Assessment Date:	Placement Result:
If Applicable, Re-assessment Date:	Placement Result:
Rationale for Challenging Placement (include your explanation here):
