Item	Discussion/Comments	Outcome
Budget	<p>Griffin shared that after the PBTs review the PRs, they will make their recommendation for reductions to the College Council on May 14. The information will then be submitted to HR for review of implications, then a possible backfill of the identified positions for 09-10, in the hope that they won't have to be eliminated.</p>	
Program Review	<p>There was a discussion about the scoring/weighting of the criteria for reviewing the PRs. The group agreed to request additional information if a PR did not provide enough information in the initial document.            Griffin will forward the revised criteria.
