

# ***10<sup>th</sup> Anniversary LEAD Global Issues Conference – Thursday, March 9, 9:30-3:30***

*All workshop rooms are located in the De Anza Campus Center*

It could be said that home is not where you live; it's where they understand you. But, in this time of global unrest and shifting political and cultural landscapes, where is home? And who understands us? How do we make ourselves at home when we fear we may never be fully understood? Or when our home is being taken away from us? This year's LEAD Global Issues conference will focus on stories of claiming home, challenging prejudice, resisting displacement, and celebrating the places we love and the values we are not willing to lose.

## ***Featured Speakers - In Conference Room B***

**Phil Hutchings, Just Cause**

**10:30-11:20**

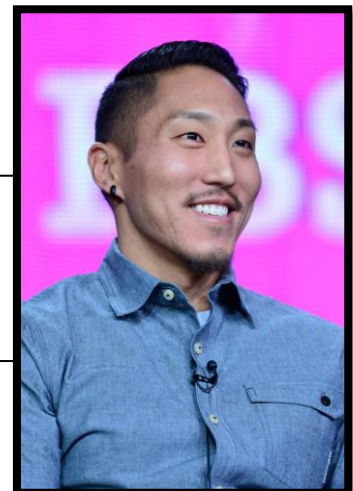

"The Trump Years: Building a Firewall of Protection Against Displacement and for Our Rights to the City"
