

SYLLABUS

MATH 212-04 College Math Preparation Level 2: Beginning Algebra Spring 2015

Instructor: Anna Sohi

Class Hours: M-F 8:30-9:20 AM

Classroom: MLC 103

Office Hours: W and F 7:30-8:20 AM, M, T and Th 10:30-11:20 or by appointment

Office Location: F61B

Office Phone: (408) 864-8310

Email Address: SohiAnna@fhda.edu

Prerequisite: Math 210 or equivalent (C or better)

Textbook: Always bring your textbook to class.

Intermediate Algebra, by Mark Clark (2012 edition)

Your textbook should include a **Webassign** access code. **If not, you must purchase one separately.**

Calculators:

TI-83, TI-84 (Plus) graphing calculator or scientific calculator is required. You will receive in-class instruction on its use.

Student Learning Outcomes:

(What you should be able to demonstrate by the end of the course):

1. Evaluate real-world situations and distinguish between and apply linear and quadratic function models appropriately.
2. Analyze, interpret, and communicate results of linear and quadratic models in a logical manner from four points of view- visual, formula, numerical, and written.
3. Demonstrate an appreciation and awareness of applications in their daily lives.

Responsibilities:

- . Be on-time.
- . Respect your classmates.
- . Use appropriate language in the class.
- . **Please make your cell phones silent before the class.**
- . No text messaging/e-mailing/other use of computer/electronic devices while class is in session.
- . Avoid distracting behavior.
- . Communicate with me if any question, as far as the course is concerned.

Homework:

All the homework will be done online. You will have approximately 1 to 5 assignments per week. Your assignments are due on Sunday of each week by 11:55 pm.

I do not accept late homework and I will NOT extend homework due dates.

Online Component: Most of the required homework will be completed online. This can be done at any computer with Internet access. Once you have your *webassign* access code, go to www.webassign.net , log-in and register, and enter Class key **deanza 7232 7150**

Projects: There will be one group project. More information will be given in class.

Quizzes: Quizzes will be given on every Friday, if you have no exam that week.

Classwork: In every class there will some classwork. Classwork is open book and you can ask me questions about it. I will always check them in class and they all will be graded on Friday of each week.

Exams:

You will have 3 exams and a comprehensive final exam. I will replace your lowest midterm exam by your final exam. *In general, I do NOT give make-ups;* if you miss an exam, that exam will be the one to be replaced by final. Make-ups *may* be given under extenuating circumstances. Calculators **cannot** be shared during exams.

Evaluation Requirements:

1. Midterm Exams	40%
2. Quizzes	10%
3. Homework	15%
4. Classwork	10%
5. Project	5%
6. Final Exam	20 %

Grading System: (In percent)

Above 96.9 A+	87 – 89.9 B+	77 – 79.9 C+
94 – 96.9 A	84 – 86.9 B	70 – 76.9 C
90 – 93.9 A-	80 – 83.9 B-	60 – 69.9 D
		Below 60 F

Tutorial Center:

Free tutoring is available in the tutorial center, located in S43; I strongly encourage you to use the tutoring. If you spend at least 24 hours in the Lab by the end of quarter, you will receive a 1% bonus on your overall quarter grade. Your attendance in the tutorial center is monitored by logging-in (and out) on the lab computer located near the entrance to the lab. You must know your student ID number in order to log-in (and out). You do not have to print out your lab hours; I will obtain a print out of the entire class.

Honor Policy:

If you cheat on an assignment/exam, you will receive a “zero” on that assignment/exam. This score will not be dropped and the dean will be notified of the incident. A written report of the incident may be put in your De Anza student record.

Attendance:

Although I do not factor attendance directly into your grade, experience has shown that students who have good attendance tend to be more successful than those who don't. If this course is important to you, I highly recommend that you attend each class, participate in all classroom activities and discussions, and **DO YOUR HOMEWORK!** As a general rule, for every 1 hour in class, you should study at least 2 hours outside of class. You will not learn mathematics merely by watching me. The last day of class is Monday June 22.

Please notify me at least one week in advance of any absence due to religious holidays, athletic or other school-related events. You are responsible for making up any missed assignments within one week of the absence.

If you decide to drop the class, it is your responsibility to inform Admissions and Records of your decision. If you merely stop attending class, you will still be on the official roster and I am required to give you a grade (F).

The last day to withdraw from the class is May 29 .

Tentative Exam Schedule (subject to change)

Exam	Material	Date
1	1.1-1.7, 2.1 and 2.2	Friday May 1
2	2.3, 2.4, 2.6, 3.1, 3.2, 3.4, 3.5	Friday May 29
3	4.1-4.7, 8.2 and 8.5	Friday June 19
Final Exam	All of the above	Tuesday June 23 7-9 am

Important dates:

Last day to drop without ‘W’ April 19

Last day to drop with ‘W’ May 29
