

SYLLABUS FOR MATH 2A -- Differential Equations

Instructor	Mehrdad Khosravi																										
Office	S-42a, 2:40-3:30 MTWR																										
Phone	(408)864-5384																										
E-mail	khosravimehrdad@deanza.edu																										
Web Page	http://nebula.deanza.edu/~khosravi																										
Class Time and Location	MTWRF 9:30-10:20, G5																										
Course Description	Ordinary differential equations and selected applications.																										
Course Text	A First Course in Differential Equations, 10 th edition, by Dennis Zill, published by Brooks/Cole, 2013, ISBN 978-1-111-82705-2																										
Course SLO	1. Construct and evaluate differential equation models to solve application problems. 2. Classify, solve and analyze differential equation problems by applying appropriate techniques and theory																										
Required Materials	The textbook, a graphing calculator (TI-83 or 84 is preferred if you are buying a new calculator. If you already have a TI-82, 85, or 86, you can use that.)																										
Course Prerequisites	Mathematics 1D with a grade of C or better. Advisory: English Writing 211 and Reading 211 (or Language Arts 211), or English as a Second Language 272 and 273																										
Method of Instruction	This class will consist of lectures and in-class discussion. There will also be boardwork and in-class group assignments which you are expected to participate in.																										
Evaluation Process	<p>Final grade in this course will be determined as follows:</p> <table> <tr> <td>Class participation</td> <td>5%</td> </tr> <tr> <td>Homework and Quizzes</td> <td>20%</td> </tr> <tr> <td>Tests</td> <td>45%</td> </tr> <tr> <td>Final Exam</td> <td>30%</td> </tr> </table> <p>Grading scale:</p> <table> <tr> <td>[92,100] :</td> <td>"A"</td> </tr> <tr> <td>[90,92) :</td> <td>"A-"</td> </tr> <tr> <td>[88,90) :</td> <td>"B+"</td> </tr> <tr> <td>[82,88) :</td> <td>"B"</td> </tr> <tr> <td>[80,82) :</td> <td>"B-"</td> </tr> <tr> <td>[78,80) :</td> <td>"C+"</td> </tr> <tr> <td>[70,78) :</td> <td>"C"</td> </tr> <tr> <td>[60,70) :</td> <td>"D"</td> </tr> <tr> <td>Below 60 :</td> <td>"F"</td> </tr> </table>	Class participation	5%	Homework and Quizzes	20%	Tests	45%	Final Exam	30%	[92,100] :	"A"	[90,92) :	"A-"	[88,90) :	"B+"	[82,88) :	"B"	[80,82) :	"B-"	[78,80) :	"C+"	[70,78) :	"C"	[60,70) :	"D"	Below 60 :	"F"
Class participation	5%																										
Homework and Quizzes	20%																										
Tests	45%																										
Final Exam	30%																										
[92,100] :	"A"																										
[90,92) :	"A-"																										
[88,90) :	"B+"																										
[82,88) :	"B"																										
[80,82) :	"B-"																										
[78,80) :	"C+"																										
[70,78) :	"C"																										
[60,70) :	"D"																										
Below 60 :	"F"																										
Tests and Quizzes	<p>The top two scores in class that are higher than 98% will receive A+. The student is responsible for saving all graded, returned work. There will be no discussion of grade discrepancies unless the student has a graded copy of the work in question.</p> <p>There will be three in-class tests, each counting as 15%. absolutely no makeup tests. If you miss a test due to what I consider an emergency and you provide appropriate documentations, I will replace that one grade with your final. If I don't consider your reasoning as an emergency, you will receive a zero for that test. Regardless, you will get zero for any other missed tests, emergency or not. No makeups for the final can be provided. The final grade cannot be dropped.</p> <p>Quizzes will be given randomly at any part of the class period. There are absolutely no makeup quizzes. A missed quiz for any reason (including coming late or leaving early)</p>																										

will count as a zero.

Homework

In the course schedule I have included a list of suggested homework problems from each section. You are responsible to do at least all of the suggested problems. You are responsible to know how to do ALL of the problems. There is a direct correlation between your level of comfort with the homework problems and your success in this class. I will collect and grade the homework for the sections covered in each test on the day of that test. All homework are due before the test begins. Absolutely no late homework will be accepted. You must keep a copy of all turned in work for you own review. Assume you will not get any of your homework you turn in back.

Class Attendance and Faculty Initiated Withdrawal Policy

A student who discontinues coming to class and does not drop the course will get an F. It is the student's responsibility to drop the course.

Attendance is mandatory, and counts as 5% of your total grade. Every absence, tardiness, or early departure for any reason results in a loss of 1%. If a student misses three classes, he or she may be dropped. However the the ultimate responsibility of dropping the course lies with the student. **I reserve the right to lock the door at the begining of each class or after a possible break to discourage tardiness.** You are responsible to come to class on time every day.

Withdrawal Policy

The withdrawal deadline for this quarter is **May 27th**. If students withdraw before this date, they will receive a "W". After this date, an "F".

Academic Honesty and Discipline Policy

Students are expected to abide by the college code of conduct. All work turned in is to be the student's own. Students giving or receiving help on a test or quiz will forfeit all points for that assignment or may be withdrawn from the course with a grade of "F". For take home assignments, any student turning in a work, which is strikingly similar to that of another student, will be required to schedule a conference to discuss the matter with the instructor, and any evidence of cheating will result in no points for that assignment and will be reported for further action.

Honors Cohort

An Honors cohort is being offered in this section. If you are in the Honors Program you are welcome to participate in the cohort. If you are not in the Honors Program but are eligible for the program, you are also welcome to participate as long as you have not taken an Honors class from De Anza previously. Eligibility requirements can be found at <http://deanza.edu/honors> or you may contact dahonors@deanza.edu with your name, SID, and the Honors course you are interested in taking. The cohort entails additional work in order to earn an Honors credit for this class on your transcript. Once you commit to the Honors portion, you will be expected to complete the extra work. Failure to complete the Honors work will result in a lowering of your Honors course grade. Honor students' grade will be out of 110 points where the extra 10 points is for your honor project. Hence, if an honor student chooses not to complete the honor project, the final grade would be at most $100/110 = 91$ which is A-.

Important Dates

Please check the [important dates](#) for this quarter. The scheduled final is on the [course schedule](#).

Expected Student Conduct

A student who is disruptive will be asked to leave the class. A student who refuses to leave the room will be dropped from the class and will be reported for further action. During the quarter, if you have any questions about the course policies, you will be first referred to this syllabus. Please make sure you keep a copy.

Students with Disabilities

Students with disabilities who qualify for academic accommodations must provide a notification from the Disability Support Services (DSS) and discuss specific needs with the instructor, preferably during the first two weeks of class. Disability Support Services determines accommodations based on appropriate documentation of disabilities. DSS is located in Student Community Services building, room 141 and their phone number is (408) 864-8753

Disclaimer Statement

The information presented in this syllabus may be modified as required by the instructor. Students will be notified of any modifications during normally scheduled classes, and the students are responsible for the changes.
